CUMULATIVE EDITORIAL INDEX

Including January 1965 through June 1965. Number preceding hyphen is month of issue; those following are page numbers.
AUTOMATION *is indexed in the Applied Science & Technology Index and the Engineering Index, available in libraries generally. Microfilm copies are available from University Microfilms, 313 N. First St., Ann Arbor, Mich.*

A

Abrasive machining, 1-56
Actuators, rotary, 2-80
Adjustable speed drive requirements, 1-62; 2-75; 3-83; 4-88
Airless spray painting, 5-93
Applying pressure sensitive tapes, 1-68
Assembling,
  clips to pen caps, prob., 2-4*
  metal parts in plastic buttons, prob., 6-4*
Assembly,
  automation of, 6-91
  brazing, 6-83
  by die casting, 2-27*
  equipment, 3-88
  on hydraulic press, 4-86
  line balancing, 1-48
  machine, 2-66
  soldering, 6-83
  with ultrasonic insertion, 6-36*
Attitudes, manufacturing engineering, 3-62
Automating, engine testing operations, prob., 2-4*
Automation,
  advisory committee, 5-12*
  communicating with employees, 1-9*
  and community relations, 3-161*
  effect on production jobs, 2-62
  in Europe, 5-42*
  management responsibilities for, 1-9*
  principles, 6-176*

B
